Beuotat Quotation proposal

Hello,

Please find our proposal for developing and building **Beuotat website** from scratch. The website will include 5 tabs, 2 contact us forms; one for the individuals and the other for the retailers. The website will be responsive on all devices (desktops, mobiles, and tablets).

Item	Cost
Front End: - Implementing the designs for the 5 tabs - Creating admin panel to control the content displayed on the website. - Designing contact us forms - Responsive website on all screens and devices	**3500 EGP**
Back End: - Building database for content and pictures - Linking admin panel to the website - Retrieving data to the database - Hosting the website on the server	**1500 EGP**
Total	**5000 EGP**

PS:

- The website will be ready to launch within 25 days.
- The costs doesn't include the domain cost or the server costs (As for Beuotat, Domain and server are already available)
- The website will be designed using html, css, and Javascript languages, to be freely customized as per your request.
